July 2023 – Present

Walgreens

Garden Grove, CA

- Managed inventory levels and minimized loss, following company systems and guidelines
- Created and maintained database of customer accounts
- Assisted customers with inquiries, orders, and complaints with a 100% customer satisfaction rate
- Communicated effectively with the team to ensure quick response times and store operation

PROJECTS

Discord Bot

github.com/Detims/discord-bot

- * Developed a Discord Application with **Python** to communicate with the Discord API, including **Docker** implementation for owners to self-host
- * Utilized a **PostgreSQL** database to maintain user scores and update server leaderboards
- * Implemented the **NLTK** Python library to interpret user message sentiment
- * Integrated Google's **Gemini** and OpenAI's **GPT APIs**, to respond to user feedback

Arknights Recruitment Calculator

recruitment-calculator-sigma.vercel.app

- * Constructed a web application using **Vite** to calculate and display potential recruitment outcomes for the game Arknights
- * Integrated **HellaAPI** to obtain up-to-date data on current characters and specific attributes
- * Utilizes a filtering system to dynamically display potential outcomes given the given user-inputted parameters

Shopping Cart

shopping-cart-gold-iota.vercel.app

- * Built a responsive e-commerce website using **React** and **Tailwind CSS** with shopping cart functionality
- * Implemented features such as adding/removing items from a cart and responsively displaying the number of items in the cart
- * Integrated **Fakestore API** for dynamic product rendering and used **React Router** for SPA navigation

TECHNICAL SKILLS

Languages: Python, C++, Javascript, HTML/CSS, SQL, PostgreSQL

Frameworks: Node.js, React, Tailwind, Express.js, Flask

Developer Tools: Git, VS Code, PyCharm, Vim, Supabase, Docker
